The first week had classes stop by to preview the Book Fair. After that, it was time to get busy on this trimester's research projects that some grade levels were doing. We had 4 cores in the library working this month on research. Ms. Gleichman's and Ms. Throckmorton's sixth grade Writing classes each spent one week completing research on their favorite musicians or celebrities. In addition to books, students were able to use websites and Adams 12 databases to complete their research. Following their time in the library, students created group presentations to teach their classmates what they learned.</p>

Both Ms. Eisentrager and Mr. Matney came in with their classes studying everyone from Abraham Lincoln and Benito Juarez to Frieda Kahlo and Jesse Owens. After using books, encyclopedias, online periodicals and databases to learn all they could about the person they chose, students will complete a research paper along with other items to show what they have learned.</p> <p>Speaking of databases, students at Niver Creek have access to a variety of different online resources that can be used at home, too, with a password. We have an online version of World Book Encyclopedia. Articles from newspapers and magazines can be found on Ebsco. If your student is doing research in Social Studies, Culturegrams and Marshall Cavendish is great. Marshall Cavendish is also a wonderful resource for Science. If you are interested in using any of these resources at home, please contact the library for passwords. You may contact Mrs. LaRue at 720-972-5149 or through e-mail at patricia.larue@adams12.org.</p> <p style="text-align: center;">Library Websites http://www.niver.adams12.org/academics/library.html http://nivercreeklmc.edublogs.org/ http://delicious.com/nivercreeklmc</p>
